DEAN'S MESSAGE

The linkage between digital technologies, constant collection and compilation of data points in multidisciplinary research across all the functional domains is changing the face of this 21st-century research. In line with this, Office of Doctoral Studies (ODS), is creating a multidisciplinary research culture and extending its support to all the research scholars across various schools for executing and sustaining a vibrant research culture at O.P. Jindal Global University (JGU). Our strengths and successes in research have already started to show impressive results. JGU is also the only Indian University focused on the Social Sciences, Arts and Humanities to be ranked. The Office of Doctoral Studies (ODS) at JGU is committed to expanding opportunities and creating an exemplary model for research excellence through industry and academia interface. Further, we are continuously enhancing our research capacities and outcomes through extended global collaborations and capacity building efforts. The goal of the Office of Doctoral Studies at JGU is to not only increase the quantity of research output but, more importantly, to ensure impact through high-quality research across all the schools. The doctoral program at JGU provides an opportunity to take up rigorous courses in different disciplines across all the schools, tailored to both their broad academic growth and the specialized needs of their own research. JGU is open to industry researchers through its part-time Ph.D. program. The JGU faculty who have a wide range of substantive and methodological expertise, are integrally involved in the Ph.D. program as supervisors and co-supervisors. The time you spend in JGU Ph.D. will critically challenge you to expand your learning as an emerging scholar so that you too can take your place among the leaders of your chosen profession. In a nutshell, JGU Ph.D. program in its entirety will chase fundamental knowledge in critical areas of social science; it will identify, attract, and nurture talent to generate a strong force of young social scientists equipped to face the challenges of a new India, and open its doors to work jointly with likeminded individuals & institutions around the world. I truly believe that JGU is one of the greatest places in the world to do research and train the next generation of researchers.

PROF. (DR.) KRISHAN K. PANDEY

Dean, Office of Doctoral Studies

PREFACE

The Office of Doctoral Studies (ODS) has taken all relevant, necessary & concrete steps to create favorable research environment for synthesizing world class quality research in O.P. Jindal Global University (JGU). ODS has continued to put focused efforts for prompt redressal of grievances of different stakeholders and extended its admin and managerial level support so as to ensure ease of access to all participants.

Regular meeting with schools SDC chair and other members were conducted at different time points in order to receive feedback/ suggestions on procedural and technical issues and resolve them promptly. Continuing with various initiatives taken during the previous year, ODS has taken necessary steps during the year for increasing the level of quality research, enhancing efficiency, uniformity and consistency in processing of applications across all the schools at JGU.

With the objective of improving functioning and synchronization across all the schools at JGU Office of Doctoral Studies (ODS) has launched its own website (<https://jgu.edu.in/phd-programmes/>) under the JGU parent website. This website contains all forms & templates, Standard Operating Procedures (SOPs), flow of research process, admission related information, list of Frequently Asked Questions (FAQs), Annual Reports & a comprehensive list of Ph.D. students at JGU, which help the office to resolve public grievances speedily and effectively.

During the year, ODS has made remarkable achievements in terms of scheduling, conduction & delivery of course work classes for Qualitative and Quantitative Research Methodology, Research & Publication Ethics & Academic writing to all Ph.D. students registered under the umbrella of JGU. ODS has taken initiative and brought out eminent personalities to speak on specific research topics / issues

and challenges through Ph.D. interactive sessions held every fortnight.

Further ODS has extended its support and assistance for smooth conduction of PhD viva in coordination with Controller of Examination (CoE) and in presence of ten doctoral candidates in the JGU history. In comparison to last academic year, we have admitted 28% more students across all the school at JGU this year. 25% students registered in JGU PhD program are on JGU fellowship.

Almost 41% Ph.D. students registered under different schools of JGU fall within age group of 31-40 years. The next in line belonged to the age group of 21-30 constituting 31% of the total. Only 17% consisted of the age group 41-50. The least belonged to the age group of 51-60 making only 6% of the total students enrolled.

JGU has successfully attracted working professionals across the industry for its part time PhD program. The numbers of Part Time PhD scholars are 63% more than the Full time which only constitutes 37% of the total enrolled. The Gender for the doctoral studies consists of 43% of female and 57 % of male. As per JGU vision we expect a significant increase in foreign origin PhD students through joint PhD and research collaboration with the partner universities across the globe. Office of Doctoral studies intends to promote an interdisciplinary research culture across all the schools at JGU through Connect, Communicate, Collaborate & Create strategy.

This report has been prepared to give a glimpse to the development taken place after the introduction of the Office of Doctoral Studies for the smooth functioning of the PhD program. The report gives a peek into the of Ph.D. students database analysis from the application stage to the selection stage and also of the Ph.D. students enrolled in JGU till date.

01

OBJECTIVES OF ODS

The main aim of Office of Doctoral Studies (ODS) is to handle the administration of the PhD program and to execute the decisions taken by the University Doctoral Committee (UDC). The office administers to the following short term objectives;

- To develop a central level admission process across all schools for full time as well as part time Ph.D. programs in accordance with UGC guidelines.
- Monitoring the progress of full time as well as part time Ph.D. scholars registered with different schools of JGU in collaboration with the respective School Doctoral Committee Chair.
- Streamlining the course work process, its delivery, credit requirement and duration.
- Developing a Ph.D. handbook and SOPs for smooth delivery of the program across all schools.

02

PROGRESS & INITIATIVES

- Provided extended support and created process and system for the students who have completed their research Journey from JGU.
- All types of academic forms and templets for the Ph.D. program have been produced by the office of Doctoral studies such as Ph.D. Progress report form, Synopsis evaluation form, Abstract evaluation form, Thesis submission form, Thesis Templet, Thesis Advisory Committee (TAC) form, Student Declaration form etc.
- Created a complete separate website for office of Doctoral Studies under the broad domain of JGU and uploaded all forms and templets on it.
- Created an annual Report for Office of Doctoral Studies and uploaded it on the Ph.D. website.
- Created an attractive Ph.D. brochure for the schools at JGU.
- Office of Doctoral Studies has collaborated with different faculty members across all the schools and delivered Academic writing, qualitative and quantitative research methodology courses for all Ph.D. scholars registered under the umbrella of JGU. The following table shows the list of professor who voluntarily opted to teach the core/compulsory coursework to the Ph.D. students.

- During the pandemic, JGU successfully conducted online classes for the scholars, so that the research work is not hampered.
- A list of the eligible Guide was furnished across all the school to help the PhD students in selecting their mentors or guides during their academic tenure in JGU.
- 21 webinars were conducted on various topics for the guidance of the scholars.
- ODS has taken initiative and brought out eminent personalities to speak on specific research topics / issues and challenges through PhD interactive sessions held every fortnight.
- The PhD rules and regulation was revisited to keep it in par with UGC, Act. The revision gave more insight to the leaves, duration of the courses, contingency amount, etc.
- On a regular basis, communication via email are sent to the applicants whose applications forms in the NPF database are found incomplete. Also as an ongoing process, the queries related to the PhD program received through NPF, phone and email is dealt by the Office of Doctoral studies with immediate replies.
- Degree Awarded to total ten PhD scholars, Ms Shivjot Gill, Ms Catherine Gatu, Mr. Omar Faruk, Mr Arnab Bose and Ms Sarni Jain from Jindal Institute of Behavioural Science(JIBS). Mr Amanish Lohan from Jindal Global Business School (JGBS). Mr. Rabie Narsh, Mr. Marian Srimal Fernando and Mr. Saber Salem from Jindal School of international Affairs (JSIA). Mr. Manveen Singh from Jindal Global Law School.

03 TRENDS OF THE YEAR 2020- AT A GLANCE

3.1 School Wise Application Data distribution

The total number of applicants earned for the year 2020 (Spring & Fall) in No Paper Form (NPF) database is 1220. 265 applicants completed the application form in full, and these details of the applicant were forwarded to the respective schools for further steps.

Table 1 demonstrate school wise application details for 2020.

JGU School	Total Application Received	Eligible & Shortlist Applicants	Offer Made After RAT & Interview	Final Registered Ph.D. students for 2020
JGLS	94	27	16	7
JGBS	62	40	30	18
JIBS	14	8	7	7
JSJP	38	15	12	7
JSIA	45	29	21	12
JSJP	3	1	1	1
JSIA	9	3	3	3
Total	265	123	90	55

Table 1: School wise application details for 2020

- Out of 265 application received by various schools at JGU, 123 applicants (around 46%) were found to be eligible after shortlisting as per JGU PhD Regulation.
- Then in the next stage these 123 applicants appeared in process of RAT exam & interview and 90 (around 73%) offers were made to join PhD programme at JGU.
- Out of these 90 offers, 55 (around 61%) students joined the PhD Programme under the various schools of JGU.

3.2 Course type (Part-Time /Full-Time) wise distribution:

Doctoral candidates have the option of choosing the PhD program either Part Time or Full Time.

Figure 1 shows school wise distribution the full time and part time students for year 2020 in which 41% student have enrol themselves as full time students and remaining are part time students.

Figure 1: School wise course type details for 2020

3.3 Gender Wise Distribution

As discussed above, we selected 90 Ph.D. students from 123 eligible applications throughout the entire process, 55 applicants joined the Ph.D. program in 2020 at various schools at JGU.

Out of these, 25 Ph.D. Scholars were female scholars and 30 were male scholars. School wise gender bifurcation can be seen in the figure 2, which is given as below

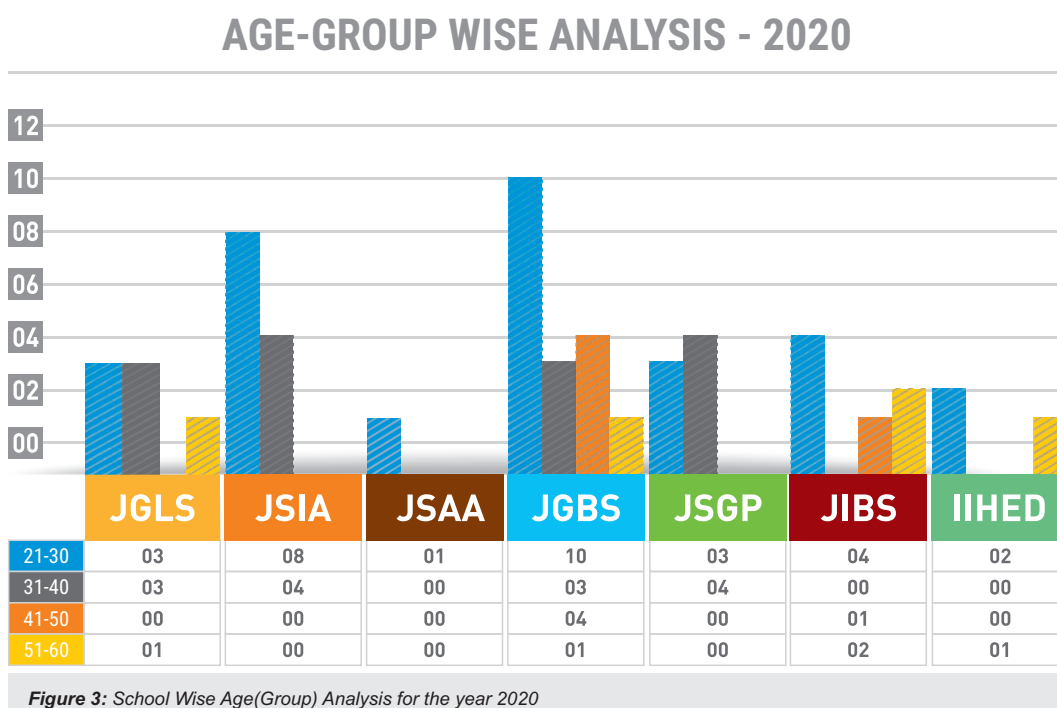

Figure 3 shows the school- wise bifurcation of the PhD student age group enrolled in JGU for the year 2020.

04 OVERVIEW OF JGU Ph.D. PROGRAM 2015 to 2020

From the very first day of the Ph.D. program (started in 2015) to the end of 2020, Total 162 Ph.D. students have been registered across all JGU schools. From the data presented below in table 2, it is quite evident that JGU's Ph.D. program has grown exponentially (around 69%) in the last two years after the Office of Doctoral Studies (ODS) was established.

YEAR	2015-16		2016-17		2017-18		2018-19		2019-20		2020-21		TOTAL

06 OUTLOOK FOR SPRING 2021

As the Ph.D. programme embarks into the next new beginning, the following measures are taken into consideration:

- The Office of Doctoral Studies plan to introduce workshops by high profile personalities across the Globe with topics related to coursework with participation from all over the world.
- To develop a conceptual frame work and execute joint Ph.D. program with the help of existing research MoU and international office.
- To provide Research focused Faculty Development Program (FDP).
- Workshop on publishing and writing a good research paper.
- SPSS software training for quantitative data analysis and research.
- ATLAS.ti software training for qualitative data analysis and research.
