“INDIA'S FLAGSHIP MISSIONS ON DRINKING WATER AND SANITATION: A PUBLIC HEALTH AND EQUITY PERSPECTIVE”

by

V R Raman
*Head of Policy
WaterAid India*

V R Raman is a public health and public policy expert working as Head of Policy, WaterAid India. He has close to three decades of experience in multiple development sectors across India and globally, working with or leading government agencies, research as well as teaching institutions, think tanks and civil society organisations. Core of his contributions in policy formulation, research, advocacy, teaching and action has been around the issues and challenges faced by the most marginalised communities and excluded population groups, towards shaping equitable and inclusive development policies and programs building on human rights lens. Uniquely, he has closely connected to several flagship missions of India, namely, National Literacy Mission, National Health Mission, Swachh Bharat Mission, Jal Jeevan Mission and Poshan Abhiyan. He has been contributing to various policies, programs and civil society initiatives as well, as member of several boards, expert committees and advisory panels. He is also the National Convenor of the Public Health Resource Network and Convenor of the Health Desk, at the All India Peoples Science Network.
