DEAN'S VICE-SAGE

Greetings,

At the outset, let me acknowledge what an honour it is to serve as Dean of the Jindal School of Psychology and Counselling (JSPC). Inaugurating a new school in the covid-era certainly has unique challenges, but I am quite pleased at the success of the school and our students to date. After a semester of online teaching, we now have students on campus and in classrooms. While we continue to adjust to the new-normal, I believe this transitory period has been beneficial in one respect—it has brought about an enhanced sense of community and connectedness across the entire school.

It is exciting to participate in and hear about the great work that is happening in our school by both students and faculty. The enthusiasm of our students is infectious, many of whom now serve in varied important positions, such as our amazing class representatives. Impressively, in just a short period of time students have organized and established PSI, the Psychological Society Initiative. This new society is sure to be beneficial for all students of psychology, from JSPC and beyond. Most recently, the school held its first elections for Student Council. My congratulations to Rananjai Pratap Singh (President), Ranya R Kaurr (Vice President), and Ansh Bharara (Cultural Secretary).

JSPC faculty have also excelled in their teaching, creative activities, and research—presenting research findings at local, national, and international forums. Such endeavours are critical for any school that aspires to be recognized as an elite institute of higher learning, providing the foundation on which all else is built. I'm happy to report that in recognition of their stellar accomplishments, three faculty members—Profs. Kanika Malik, Mahima Raina, and Prachi Vashishtha — were recently promoted to Associate Professor, while Prof. Manjushree Palit has been elevated to full Professor. Looking forward, the addition of new JSPC faculty members will provide even more diversity and expertise across all the various subdisciplines of psychology.

Over the coming year, the school will continue to expand and offer more opportunities to our students, including prospective internships and foreign institutes at which to study. Further, a new JGU Psychology Research Laboratory will soon open. Run and administered in collaboration with the Jindal Institute of Behavioural Sciences (JIBS), the laboratory will enable students to gain first-hand training and understanding in experimental design and analysis. While research is common at the postgraduate level, such experiences are unique in the realm of undergraduate education.

Beyond the B.A. (Hons.) programme, JSPC will also commence a M.A./M.Sc. programme in Applied Psychology this fall, in collaboration with JIBS. The ability of undergraduate and postgraduate students to mingle and

interact is sure to increase the intellectual vibrancy of our school.

As the 2021-22 academic year nears its conclusion, I want to offer my deepest gratitude for the outstanding work of the staff and faculty of JSPC. Our executive assistants are dedicated and resourceful and the school could not operate without their diligent efforts. Our faculty, meanwhile, have gone the extra mile to provide quality instruction and, when needed, assistance to students struggling with academics, physical and mental health issues, and overall well-being.

While the return to campus has brought many challenges—for students and faculty alike—I am immensely proud of how everyone has adapted and come together this semester. There truly is no substitute for face-to-face communication between students and professors. Rest assured, JSPC remains committed to providing a premiere educational experience to all students, in and out of the classroom. This goal will remain at the forefront of our efforts as we continue to develop and expand the school in the years to come.

Derick H. Lindquist, Ph.D.

Professor and Dean

*School of Psychology & Counselling
O.P. Jindal Global University*

Faculty Experiences

Prof. Manjushree Palit

Professor & Associate Dean

My journey at JSPC has been transformational ! I have had the opportunity to be a part of a wonderful team - brainstorming, conceptualizing and turning our shared dream of JSPC into a reality.

Dr. Kanika Malik

Associate Professor

This was my first job teaching undergraduates, so there was an excitement to take on this new role. At the same time, there was a feeling of nervousness, which came with the realisation that I have to shoulder this 'big' responsibility of shaping the mind of today's youths. Even though I was anxious to start with, it turned out to be a great year. The unending support from Dean Derick H Lindquist was greatly helpful. He was always there to answer my long list of questions and help me see the bigger picture when I missed one. My colleagues, although remote, were always there to celebrate big and small successes. The most important pillar of strength was my students- their curiosity, reflection and passion for doing good for others, made me fall in love with psychology again. It is awesome that we are taking this journey together, and I hope all my undergraduate students end up loving the field of mental health as much or even more than I do.

Dr. Prachi Vashishtha

Associate Professor

I have always believed that teaching is essentially a process of learning. Engaging with young minds and colleagues at JSPC offered me an intellectually stimulating environment to learn and grow as an academician. In the year of the pandemic, the warmth, and care extended by the JSPC community helped the students to thrive and come out with flying colours. As a school, JSPC has always believed in the idea that learning is not limited to classrooms. JSPC creates a nurturing space for students to express and share their diverse talents and ideas enabling their holistic personality development.

Dr. Amanpreet Kaur

Assistant Professor

It has been a joyful, satisfying and captivating experience for me at JSPC. The students are reflective, curriculum is enriching, and authorities give utmost freedom to faculties to make use of creative and innovative methods of teaching. I am able to teach, get involved in extra-curricular activities, do research, collaborate within and outside the University and continue my clinical practice. As someone said, "The purpose of education is to replace an empty mind with an open one". JSPC follows the same approach to be able to open various doors of opportunities for the students. New ideas are welcomed and supported by all; this gives lot of scope not only for students to learn but the education system to grow together. The class schedules, extracurricular and after school events are very different from other settings or colleges in India.

Dr. Arti Singh

Assistant Professor

"Progressive, nurturing, innovative, collaborative and employee-friendly" are the words that come to my mind when I think of JSPC and its culture. Although, I joined JSPC this semester only, but I feel it is one of the best places to work. I am so happy to be a part of the JSPC team! Thank you everyone!

Dr. Divya Bhatia

Assistant Professor

Teaching the young minds at JSPC has been wonderful so far. Students at JSPC not only represent the potential, curiosity and enthusiasm of the young generation but also the diversity in the ideas. It is so great to indulge in interacting and teaching the young minds of a new generation of potential psychologists.

Dr. Deepali Taneja

Assistant Professor

Teaching at Jindal School of Psychology and Counselling has been an enriching experience for me. Although, most psychology students come to a stats class with a lot of apprehensions, it has been wonderful to see them slowly understand and even enjoy the process of learning. I am positive that this incredible batch of students would be successful psychologists in the future.

Ms. Garima Jain

Assistant Professor

My experience of working with JSPC is unparalleled. There is a strong sense of community within JSPC, heightening a sense of purpose and meaning to the mission of the university. The most rewarding part of working in JSPC are its students who are driven and passionate to the field of psychology. The collegiality among the faculty and staff members provide ample opportunities to collaborate. I am fortunate to be a part of great team.

Dr. Meenakshi Banerjee

Assistant Professor

I joined JSPC in July 2021. The fall semester was taught online, and it was my first experience of teaching in this mode. Teaching online requires the teacher to innovate an interactive style and pedagogy. I think, I was able to engage some of the students and was able to connect, specially through the practicum classes where students were able to engage with theory through their own experiences. The second semester has changed all this and getting back to classroom teaching is fun. Meeting the students in person was very exciting. Teaching is a dialogic activity and requires students who are attentive and responsive, and I am delighted to find that we are learning together in the JSPC's new classrooms!

Dr. Nitya Prakash

Assistant Professor

JSPC has opened up new possibilities for me. The work culture has brought back the enthusiasm that comes from taking up new challenges in teaching and learning. It's been an incredible learning experience so far especially working alongside such a great team of faculty and ever so inspiring students. It's a matter of great pride to be contributing back to the discipline of psychology and to simultaneously grow in my own potential.

Dr. Prama Bhattacharya

Assistant Professor

I always knew I wanted to be an academician. So when I received my appointment letter from JSPC, it was a dream come true. I appreciate being at JSPC because of its work culture. It allows me to grow at my own pace. My career as a teacher couldn't have had a better start!

Dr. Suresh. C. Joshi

Assistant Professor

My teaching experience at JSPC has been great. Interacting with students from different demographic and backgrounds has been fulfilling. Seeing them grow, academically and professionally, within and outside the classrooms is itself enriching. Student perspectives about learning theories make me think critically. My research experience at JSPC has been amazing so far. I am excited about my upcoming project, especially the one comprising student collaborators.

Ms. Sindhura Yamini

Research Fellow

JSPC has given me an opportunity to explore an aspect of my career that was left behind, Research. Here, there is a cordial and positive working environment which is truly amazing. A noteworthy part of my experience is to work under the leadership of the dean, Prof. Derick who is positive, encouraging and inspires me to do more. Together, we all are navigating through hybrid mode of learning which is the best part of this university, there is always something new to learn!

Mr. Ashim Roy

Executive Officer

One of the best things about JSPC life is that you get a new experience every day. There were several things I enjoyed. I had face-to-face conversations with experts who delivered lectures on human emotions and with participants who shared their experiences about Psychological analysis. Working in a prestigious university in India is a great opportunity for me, like working with psychological experts; I hope it will be a great milestone for me.

Ms. Alisha Sindwani

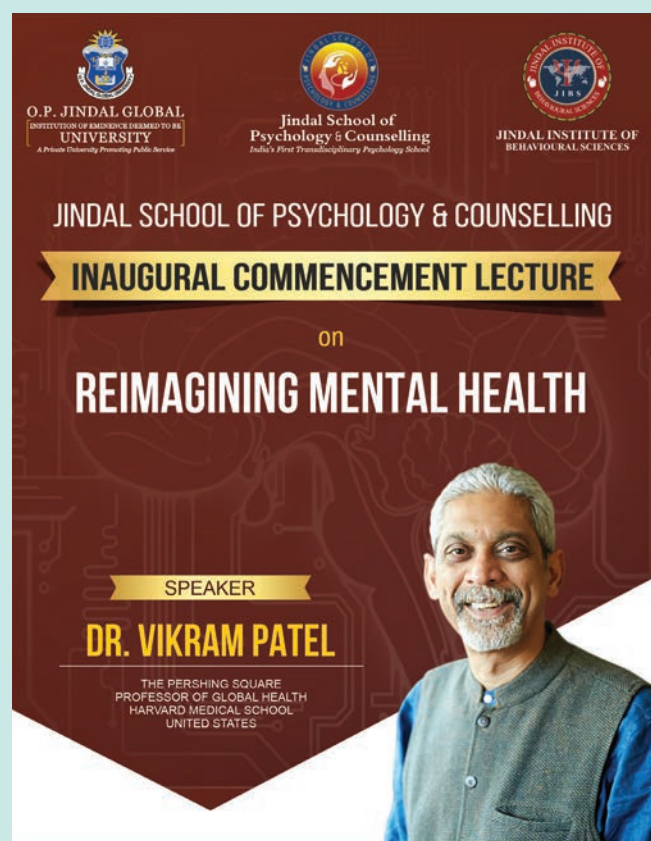

Assistant Manager

Joining such an esteemed organization is the best thing that has happened to me in quite a while. I joined Jindal School of Psychology & Counselling towards the end of January this year. JSPC Team has been very welcoming, friendly and understanding. JSPC puts great efforts in providing the best working environment for its employees and it gives me immense happiness while working here. I am confident that JSPC will provide me great platform that will elevate my learning curve. I feel empowered with the kind of experiences I have had with JSPC and I am proud to be a part of JSPC Family.

Jindal School of Psychology & Counselling (JSPC) Events 2021-2022

Reimagining Mental Health

August 2021 – JSPC Inaugural Commencement Lecture On '**Reimagining the Mental Health**' by Dr. Vikram Patel, The Pershing Square Professor of Global Health, Harvard Medical School, United States.

 **YouTube Link**

<https://www.youtube.com/watch?v=osQtgDNDNkc>

JSPC Prestige Program

August 2021 - The faculty members of JSPC conducted the **Pre-Immersion Training, Immersion and General Engagement (PRESTIGE)** program for the newly admitted students. The program started with an 'Open House' to introduce the faculty members to the students followed by various informative sessions such as 'Learning about the courses'; 'Knowing the Tracks of Study'; 'Round Table Discussion on 'Careers in Psychology'' and a fun filled 'Popcorn & Movie Night' with Students.

Inauguration of Emotion and Cognition Research Centre

October' 2021: E-Cog is a Joint Research Centre established by Jindal School of Psychology & Counselling and Jindal School of Liberal Arts & Humanities. **The Centre explores emotion and cognition.** The Centre promotes research-anchored education for students in both Schools and, more broadly, all students at JGU.

Faculty Development Training Program

December 2021

Faculty Development Event
- Guest lecture by Dr. Lynda Hutchinson from King's Western University on the topic

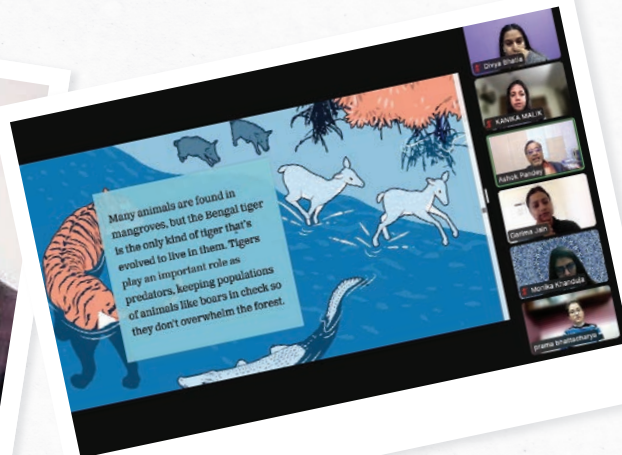

Preparing Students for Lifelong Learning

January 2022

Faculty Development Event
- Guest lecture by Dr. Ashok Pandey, Director, AHLCON Group of schools on the topic

Alternate Pedagogy: Making Business of Nature

SESSION 4
HYBRID

ETHNOGRAPHIC NARRATIVES OF THE RAPE SURVIVORS:
RAPE CULTURE AND CRIMINAL JUSTICE SYSTEM

SPEAKER

GARIMA JAIN
Assistant Professor,
Jindal School of Psychology & Counselling (JSPC)

LECTURE'S BRIEF: Despite public outrage, rape law reforms, stringent criminal measures, sexual offences continued to be characterized by lower prosecution and conviction rates. Using ethnographic account of the rape survivors and their families, the lecture will highlight how the agency, voice and narratives of the survivors are controlled by criminal justice processes. The lecture will focus on the prevalence of rape culture in the justice system and subsequent challenges faced by the survivors in accessing the justice. Recommendations of victim- centered criminal justice system are presented.

Joint Seminars/ Lectures

November 2021

Joint Seminar on '**School Mental Health**'.

Speakers were Dr. Siobhan Hugh-Jones, Associate Professor in Mental Health Psychology, School of Psychology, University of Leeds, UK & Dr. Kanika Malik Assistant Professor, JSPC, Jindal Global University, India.

November 2021

Joint Seminar on '**Resilience: The key to unlocking the puzzle of the Challenge of Change**', held as part of the UN75+1 at NTU: The Challenge of Change Virtual Conference.

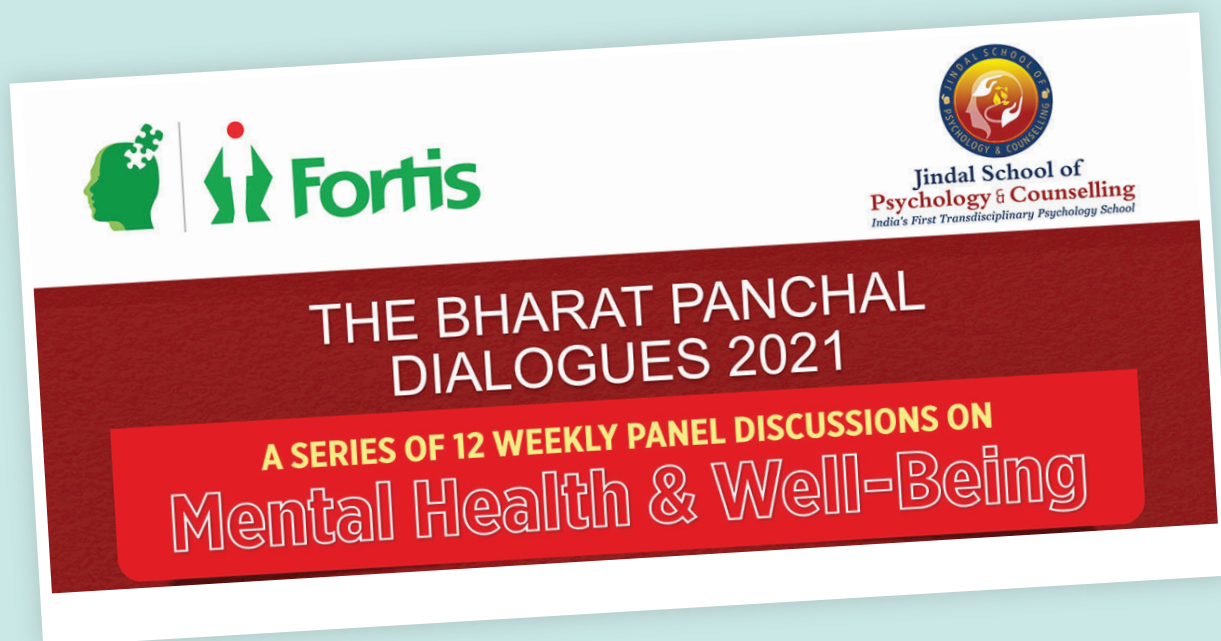

Speakers were Dr Glenn Williams, Nottingham Trent University, UK; Dr Maliha Ibrahim, Jindal Global University, India; Dr Amalia Madihie, Universiti Malaysia Sarawak (UNIMAS), Malaysia.

April 2022

Joint seminar by **JSPC, JGU (India) and School of Psychology & University of Leeds (UK)**.

Speakers were Dr Prama Bhattacharya (JGU) and Dr Hannah Nash (Leeds) will talk about the impact of the COVID-19 pandemic on homelessness and education, respectively.

Bharat Panchal Dialogues – Lecture Series (2021):

It was a matter of great pride that JSPC could forge a partnership with Fortis Mental Health Care to sponsor the 2021 'Bharat Panchal Dialogues'. Various faculty members of JSPC engaged in meaningful dialogue with various specialist in psychology through a panel discussion that spanned over three months from 17th October' 21 to 19th Decemeber' 21.

The target audience included psychologists (young and seasoned academicians, professionals, researchers, practitioners, graduates, postgraduate, MPhil, and Ph.D. students). The idea was to empower and encourage knowledge-sharing and community participation. The faculty member of JSPC spoke on the following topics –

Dr. Manjushree Palit
Topic: 'Parenting Practices that Promote Child Mental Health'

Dr. Meenakshi Banerjee
Topic: 'Geriatric Mental Health'

Dr. Mahima Raina
Topic: 'Chronic Care Practices: Learning from the Pandemic'

Dr. Prama Bhattacharya
Topic: 'Mental Fitness in Times of Uncertainty'

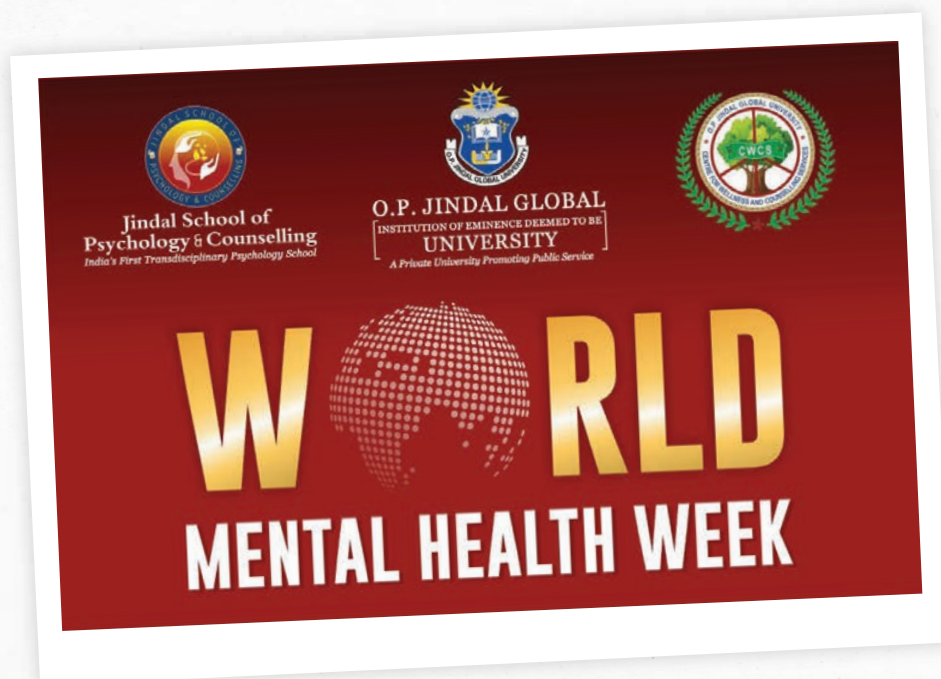

Dr. Nitya Prakash
Topic: 'Dealing with Loss, Grief and Bereavement'

Dr. Suresh Joshi
Topic: 'Positive Psychology: Significance of Optimism, Hope and Resilience during times of Uncertainty'

Guest Lectures & Workshops

◀ October 2021

Student-Moderated Panel Discussion on 'Physical and Mental Self-Care' to commemorating '**World Mental-Health Week**' & 7 day self-care pledge challenge organized by Student Affair Committee in collaboration with Centre for Wellness and Counselling Services (CWCS)

October 2021 ▶

On '**Exploring various applications and opportunities in the Field of Developmental Psychology**' by Dr. Vinita Bhargava, Professor, Department of Human Development and Childhood Studies at Lady Irwin College, University of Delhi.

March 2022 ▶

On '**Statistical Methods for Psychological Research**' was conducted by Mr Amritendu B., Lead Biostatistician.

◀ April 2022

On '**Environmental Psychology**' by Dr Ashok Pandey, a renowned educationist and a recipient of 'Extraordinary Leadership Award 202' by the Education World, listed by the Forbes India 2020 among the 100 Top People Managers.
